

Direct Mortgage Wholesale Testimonial

"As the Principal Lending Manager for Midtowne Mortgage, I'm cautious about which wholesale lenders we use. Since we began using Direct Mortgage, we've had nothing but successful loan closings and happy, satisfied borrowers. The automated system Direct Mortgage built has streamlined the process of underwriting and closing loans. On those rare occasions when there are rushes or last minute changes, the support staff has been available and willing to see that closings were not held up and fundings happen on time.

I highly recommend Direct Mortgage."
